

Asthma and Allergy
Foundation of America

June 22, 2009

Dale L Griffiths
Director of Business Development
American Association for Respiratory Care
94254 N. MacArthur Blvd., Suite 100,
Irving, TX 75063-4706

Dear Mr. Griffiths,

The Asthma and Allergy Foundation of America is pleased to support the American Association for Respiratory Care's asthma awareness program, [Peak Performance USA](#). AAFA applauds the commitment of AARC to help children with asthma manage their chronic disease. This new web-based program will be a valuable resource for schools as they address the needs of students who have asthma. The educational materials and links to additional resources offer practical information on managing asthma. By encouraging a partnership of school personnel with health care providers, students and parents, AARC is also ensuring that children with asthma will receive much needed support and care.

AAFA is dedicated to improving the quality of life for people with asthma and allergic diseases through education, advocacy and research. Children with asthma should be able to live healthy, active lives.

Sincerely,

William McLin
President and Chief Executive Officer
